

THE COLLECTION

A body of work that accumulates.

The Collection does not reset with the season. Every Style is a permanent silhouette — Skirt 001, Shirt 007 — and every Expression is the cloth it is realised in for a given Lot. What is available now is The Release. Everything the house has made stays in The Archive.

MADE BY MASTERS

Nothing here is restocked.

Each Edition is sized to what the Masters can make in one cycle — some runs are twenty-five, some are two. A Jamdani weaver makes a quarter of an inch a day. When the last piece of a Release goes, the Release closes, and the record moves to The Archive.

THE MASTERS

The knowledge most of the world has forgotten.

Khadi weavers. Ajrakh block printers. Ikat dyers. Jamdani weavers. Gota Patti embroiderers. Each technique was developed over centuries in alignment with the natural world — dyes drawn from plants and minerals, processes governed by sunlight, rainfall and time. This knowledge lives in hands and families, not factories.

01 / FULL-WIDTH WORKSHOP PHOTOGRAPH · TEXT SITS OVER THE IMAGE · OVERLAY 60%

THE PACE

Their pace is the pace of nature. That is the pace of Hartwick.

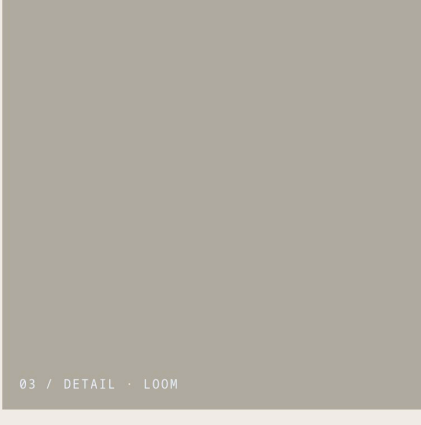

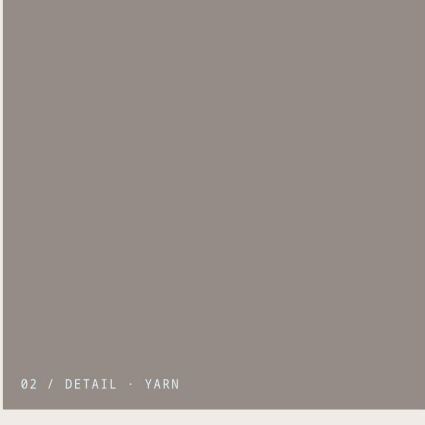

A Jamdani artisan weaves a quarter of an inch a day. Ajrakh silk rests between each of its sixteen processes, because the natural dye needs time to bond with the fibre. Natural indigo is fixed by the sun. There are no shortcuts, and the Lot sizes are not a marketing device — they are the honest yield of what nature and the Masters can produce in one cycle.

We do not rush what took this long to become this extraordinary.

Khadi.

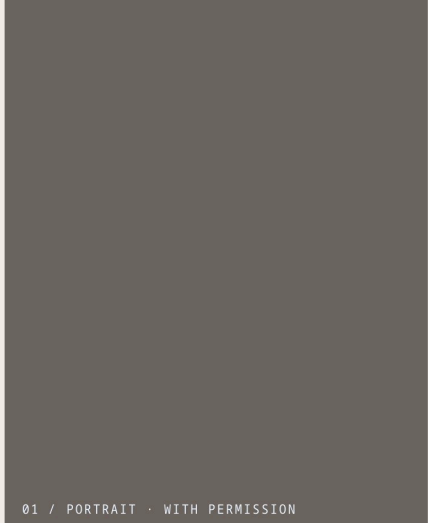

Yarn spun by hand, then woven by hand. The count is never perfectly even, which is why the cloth breathes and drapes as it does. Handloom is humanity's original sustainable technology — refined across millennia in the warp and the weft.

STEWARDSHIP

To work with The Masters is to become a steward of something irreplaceable.

Every piece in the Collection ships with its Lot number, its Origin, and — with permission — the name of the Master who made it. The value of each piece begins with knowledge held in human hands.

THE REGISTER

To be on The Register is to be first.

Free, and open to all. The Register is how the house speaks to the people who care about how things are made — first to hear of each Release, first to be invited to Atelier Evenings, and the only address The Dispatch is sent to.

WHAT YOU RECEIVE

01

The Dispatch

A considered piece of writing, not a sales email. On craft, provenance, the people behind the pieces, and what is coming next.

02

Each Release, first

The pieces, the number made and the ship date — announced to The Register before the Release is public. Scarcity stated plainly.

03

Atelier Evenings

Private gatherings around craft, conversation and community. The Register is the only route to them.

HOW IT WORKS

Three steps. No account.

01 / JOIN

One address.

Your email, and your first name if you would like the letters addressed to you. Nothing else is asked for.

02 / CONFIRM

One click.

A confirmation arrives in your inbox. Clicking it is what places you on The Register, so no one can be added by someone else.

03 / RECEIVE

Then, the letters.

The Dispatch, each Release before it is public, and the invitations. Every letter carries a link to leave; it takes one click.

PLAINLY

No urgency. No noise.

We do not manufacture urgency. Expect the announcement of three to four Releases a year, The Dispatch around each, and very little in between. Your address is used for The Register and nothing else.

The Register is not The Circle. The Circle is a small, invitation-only group of founding friends of the house, and has no application route. The Register is open to everyone, and it is the door to everything that follows.

THE DETAILS

Questions, answered plainly.

IS THE REGISTER FREE?

Yes. There is no fee, no tier and nothing to buy. It is a list of people who want to know how the pieces are made and when they are available.
